

Introduced by Senator Perata

February 9, 2006

An act to amend Section 42238.51 of the Education Code, relating to public schools.

LEGISLATIVE COUNSEL'S DIGEST

SB 1266, as introduced, Perata. Charter schools: funding.

Existing law requires the county superintendent of schools to determine a revenue limit for each school in the county pursuant to a prescribed formula, and requires, for purposes of that apportionment, that average daily attendance be calculated, as prescribed.

Existing law requires a school district to compute the fiscal year average daily attendance, as specified.

Existing law requires a sponsoring school district to compute its average daily attendance by computing the sponsoring school district's regular average daily attendance in the current year, excluding all attendance of pupils in charter schools, and by computing the sponsoring school district's 2nd principal apportionment regular average daily attendance for the prior year, excluding all attendance of pupils who either attended a charter school in the prior year or who attended one or more noncharter schools of the school district between July 1 and the last day of the 2nd period, inclusive, in the prior year, and attended a charter school sponsored by the school district between July 1 and the last day of the 2nd period, inclusive, in the current year.

This bill would require the amount excluded from the average daily attendance for the prior year to be reduced by the amount, if any, of attendance of pupils who attended a charter school sponsored by the school district in the prior year and who attended a noncharter school of the school district in the current year, as specified.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
